# Advance in Africa:

**Sub-Saharan markets present growing investment opportunities as global and regional dynamics continue to shift. Responding at pace to commercial opportunities requires expert guidance to navigate the operational challenges of each new market.**

With well-established senior networks across the region, StoneTurn's operation in Sub-Saharan Africa combines our global perspective with local expertise. Our team draws on the wealth of disputes, investigations, forensic and regulatory expertise across the firm globally from Los Angeles to New York, London to Singapore. From our South African and London offices, we are ideally positioned to be your strategic partner in Africa, ensuring you can mitigate risk while capitalising on a region that continues to provide commercial opportunities.

**Every journey worth making comes with risks. Let StoneTurn help you navigate to success in unfamiliar territory.**

**Turn to us to discuss your objectives and challenges.**

## Core Services:

### Cross-Border Investigations

StoneTurn specialises in cross-border investigations throughout the African continent. We use our local expertise, global connections and proprietary data to provide actionable insight. Our support enables you to mitigate risk and make better informed strategic decisions in Africa's fast-changing markets.

### Asset Tracing & Litigation Support

StoneTurn is skilled at identifying and recovering assets in Africa. Our team, which includes forensic accountants, experienced investigators and data analysts, supported by our regional networks, works together to develop effective asset recovery strategies, leaving no stone unturned.

StoneTurn supports your arbitration and litigation strategies with our multidisciplinary global team working seamlessly with counsel in support of your legal objectives. We offer a full suite of capabilities including cybersecurity, E-discovery, computer forensics and quantification of damages.

### Due Diligence & Business Intelligence

Due diligence is the key to a successful business transaction. Whether you are investing in a business, contracting services or considering a partnership, understanding the underlying risks and developing risk mitigation strategies in advance allows you to proceed with confidence. StoneTurn is committed to helping clients mitigate risk and make informed business decisions. We have supported corporate and private equity clients across the deal cycle from bolt-ons, to senior staff referencing and billion dollar take privates.

# Why StoneTurn Stands Out:

## Local Knowledge

Extensive networks across industries with on the ground experience:

- We understand the local business operating environment and how that impacts your business.
- Our team of former regulators allows clients to stay ahead in an ever-changing legal and regulatory landscape.
- We leverage our local relationships and networks to provide commercially relevant insight.

## Client-First, Always

Our One Firm philosophy allows us to build multi-disciplinary teams across regions seamlessly, which are tailored to the specific requirements of your case:

- Clear, concise and relevant insight.
- The right specialists for every project.
- Collaborative, responsive and discreet.

## Senior Involvement Throughout

Senior team members are on hand throughout every matter:

- Direct access to the experts who know your project.
- Continuous support from senior team members.
- Every detail is handled with care and precision.
